Requirement Analysis

Solution Requirements (Functional & Non-functional)

Date	17 February 2026
Team ID	LTVIP2026TMIDS37778
Project Name	Laptop Request Catalog Item

Functional and Non-Functional Requirements:

To ensure the successful design and implementation of the **Laptop Request Catalog Item** in ServiceNow, both functional and non-functional requirements were carefully analyzed and defined. These requirements form the foundation for the system's behavior, features, and overall performance.

Functional Requirements:

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Login & Role-Based Access	Employee Login
		Manager Login
		IT Admin Login
FR-2	Catalog Item Submission	Laptop Request Form Submission
		Filling Laptop Model and Justification
		Selecting Additional Accessories (Dynamic Field)
FR-3	UI Policy Enforcement	Make Accessories Details mandatory when checkbox selected
		Field visibility based on UI policy
FR-4	Approval Workflow	Automatic routing to Manager for approval
		Manager approval/rejection process
FR-5	IT Admin Fulfillment	IT Admin receives approved requests
		Allocate and fulfill laptop requests
FR-6	Request Tracking	Employees can track request status

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-7	Notifications	Email notifications to Employee and Manager on status updates
FR-8	Admin Monitoring	Admin can view all requests, approvals, and fulfillment
FR-9	Form Reset Action	Reset button clears all fields in the form
FR-10	Data Governance	Track all changes for auditing and compliance

Non-Functional Requirements:

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	Intuitive UI with user-friendly forms and clear instructions
NFR-2	Security	Role-based access control, secure login, and compliance with internal IT policies
NFR-3	Reliability	Ensure requests are processed and tracked consistently without errors
NFR-4	Performance	Fast form submission, approval routing, and real-time status updates
NFR-5	Availability	Accessible 24/7 within the ServiceNow instance with minimal downtime
NFR-6	Scalability	Supports future addition of other catalog items, roles, or dynamic form enhancements
NFR-7	Auditability	All requests and changes logged for compliance and governance purposes
